

MaXima

MADE TO LAST

 **FIMAP**[®]

MaXima

A sturdy construction made with the best components and shaped in a striking design

Every detail is meant to improve ergonomics, simplicity and comfort during use. The outline protects the machine and keeps reliability high over time. At its core, innovation and technology

provide the best performance and power, ensuring high cleaning quality and efficiency. A new instrument panel makes you feel all the technology inside, totally changing the user experience.

MaXima

Maxima

MaXima

REDUCE THE TOTAL COST OF OWNERSHIP

The outer body surrounds the machine internal structure and mechanical parts, protecting them from accidental impact

Polyethylene makes the machine sturdy and shockproof

The sturdy design reduces breakdowns,
extends the machine lifetime and helps you save time and money

Aluminum increases machine reliability

MaXima

SAVE TIME AND REDUCE COST TO CLEAN

QUIET OPERATION IN OPENING HOURS
The Eco Mode and FNC technologies lower the noise level, safeguarding the health of the operator and of the people nearby

EASY MAINTENANCE - COLOR CODED PARTS 

Parts which must be cleaned regularly at the end of every shift are colour coded in yellow for easy identification, saving time and making sure that your scrubbing machine is kept in perfect condition at all times

FFF – FIMAP FAST FILL
Automatic system for filling the fresh water tank, lets the operator perform other activities while the tank quickly fills up

ACCESSORY STORAGE COMPARTMENT

The operator can work in absolute tranquility in the knowledge that when he needs them, all the accessories are close at hand, and once finished with, these can easily be placed back in their compartment, allowing the cleaning operation to proceed without long interruptions and wasted time.

Comfort and ease of use speed up cleaning operations

NO TRAINING

On-board machine instructions and intuitive instrument panel ensure easy and safe operation, without training

EASY MAINTENANCE

Spray gun for quick and easy cleaning of the recovery tank

MaXima

IMPROVE YOUR FACILITY IMAGE

POWER MODE

Perfect cleaning is guaranteed in one pass

When more scrubbing power is needed, activating Power Mode increases the delivery rate of detergent solution and boosts brush pressure and vacuum power for the time necessary to tackle heavy duty cleaning

Further solutions to increase productivity

Consistent cleaning results

Pressure on the brushes is kept constant, delivering consistent high cleaning results on any type of flooring

No risk of slipping

The powerful 3-stage vacuum motor leaves the floor immediately dry and safe

Reduce downtimes

The largest tanks in its class: less stops to fill/empty the tanks

FLR-FIMAP LONG RANGE

Increases productivity by up to 70%

Great autonomy

Work for up to 4 hours non-stop

VACUUM WAND

Vacuum wand allows to clean areas that are out of reach of the machine and successfully fulfill the task

SAFETY SYSTEMS FOR ACCIDENT-FREE CLEANING

ACTIVE TECHNOLOGIES to prevent accidents

Enhances visibility in dim light

TOUCH SCREEN
DISPLAY

Control device letting the operator
set the required speed

CRUISE
CONTROL

Is automatically operated
when the machine stops.
It works as a safety parking brake

ELECTROBRAKE

For a fast operator training and reduced cost to clean

VIDEO
TUTORIALS

Maximize work safety in all conditions

LED HEADLIGHTS

They protect the operator, the people nearby and the environment

PASSIVE SYSTEMS

to help the operator in case of emergency

SOS
DEVICE

Reduces time to service in case of emergency. The red button sends an sms alert to receive a prompt help, reducing downtimes

EMERGENCY
STOP

By pressing a single button the machine stops immediately

MaXima

The operator is the centre of a high-tech universe,
where everything is easy, intuitive and dynamic

TUTORIALS

All functions and activities are managed from a single interface, where a mere touch of the finger offers access to an extraordinary choice of customisable features to satisfy all types of requirements with extreme simplicity.

The high definition colour display offers the same intuitive experience as a smartphone

LOG-IN WITH PASSWORD
To protect your investment

ZONE PROGRAMS
For all the performance you'll ever need

ECO MODE
To protect the environment

POWER MODE
For maximum power when you need it

VIDEO TUTORIALS
For a more efficient, fast and easy operator training

EXPERIENCE CONNECTIVITY

Discover the FFM universe and experience the advantages of being constantly connected, with My.Machine app!

My.Machine

Keep tabs on your machines remotely when you want and from wherever you want!

Developing new technology to improve efficiency is one of the core missions of Fimap.

An example of this is FFM, the Fimap Fleet Management system which collects the data sent by the machines and transforms it into valuable information accessible to you easily in real time, 24/7, from your smartphone, through the app My.Machine.

Being constantly connected to your machines will help you operate them even more efficiently and effectively. My.Machine lets you know where the machines are, if the

operation is being carried out according to plans and at the scheduled time.

The machines health status is constantly monitored. In the very unlikely event of a breakdown, you'll receive an alert notification directly on your smartphone, allowing you to take action promptly and immediately call the technical support.

You can check the battery conditions and the quality of the charges in order to optimize battery endurance and life cycle.

You know how your machines are used

HEALTH STATUS

You know the health status of machines and batteries

ENVIRONMENTAL IMPACT

You can check the machine consumption per intervention

Maxima

SAVE RESOURCES

Advanced technological solutions offer a reduction in cost per sq.m. cleaned, more working autonomy, time savings and better cleaning results, letting you cover more surface area with the same resources.

The Eco Mode function helps prevent water, detergent and energy consumption by using only the quantities you need and nothing more

When the machine is idle, the brush motor, the vacuum motor*, the traction and the water flow will turn off automatically, reducing costs and emissions.

All the functions are reactivated automatically when the operator presence control is operated.

*Suction is not turned off automatically in E versions. In basic and Pro versions suction turns off when the squeegee is lifted up

START&STOP

Sustainable solutions to protect the environment

WATER

FLR-FIMAP LONG RANGE

Reduces water and detergent consumption per cleaning operation by up to 66%*. This is a system which recycles detergent solution to increase autonomy: to scrub more sq.m. while using less resources

FSS-FIMAP SOLUTION SAVER

Water and detergent quantities are separately dosed, reducing consumption by up to 50%

FWF-FIMAP WATER FLOW

Ensures uniform cleaning results across the entire working width on the first pass, optimising detergent solution consumption

ENERGY

FES-FIMAP ENERGY SAVER

Reduces energy consumption by up to 35%

LED TECHNOLOGY

Up to 80% lower energy consumption than conventional headlights. The LED headlights consume much less energy than conventional headlights, offer a longer lifespan and illuminate with a brilliant white light similar to natural daylight

NOISE LEVELS

FNC-FIMAP NOISE CANCELLING

Reduces sound pressure

*Saving calculated on a triple recycling cycle

ACCESSORIES

A wide choice of disc or cylindrical brushes in PPL is offered, available in thicknesses from 0.3 to 0.9 cm. These offer the perfect solution for dealing with any type of dirt on any floor.

Abrasive brushes:
Ideal for heavy duty cleaning on industrial surfaces.

Pads
BLACK – Superior abrasiveness for rapid and thorough heavy duty cleaning.
GREEN – Ideal for removing dirt from more delicate floors (rubber or linoleum).
RED – Ideal for scrubbing delicate or treated floors, and achieving an instant shine.

Rear squeegee rubber blades
33 SHORE (PARA)
For maintenance cleaning of smooth floors.
40 SHORE (PARA)
For stubborn dirt on floors with joints.
POLYURETHANE
For heavy duty cleaning on industrial floors, even with wide gaps.

SERVICES

CONSULTING AND PLANNING

We put our experience at your service, to help you realize the cleaning project perfect you. We suggest you the best solutions to make costs decrease and service quality increase.

SETUP

We can help you set up your machines in order to make them meet specifically the requirements of the sites of your project, allowing you to always have control over costs and results.

AUTHORIZED WORKSHOP NETWORK

Fimap Authorized Workshop network spans the globe, so you can enjoy the peace of mind of finding a professional support wherever your business is.

CONFIGURATION

Your business is unique, only a customized fleet can lead you to better results. We will help you find the configurations that best fit the specific requirements of your cleaning sites, in order to optimize processes and lower costs.

TRAINING COURSES

Fimap Academy offers courses for all levels, from the correct use of machines and technologies, up to the management of sites and tenders, helping you to make your service really competitive.

MAINTENANCE AND REPAIR

For your business to run smoothly it is essential that your machines are kept always operational. Our technicians take care of monitoring the machines health status and know how to intervene quickly and effectively when needed.

FINANCIAL SOLUTIONS

You can choose to use the fleet in different ways. We can advise you on the best financial solution for your business, so that you can get the quality of the Fimap world at the most convenient conditions for you.

DIGITAL FLEET MANAGEMENT SYSTEM

With Fimap Fleet Management everything is under your control. You can have a complete overview of the service provided and find out the improvements that can be made, basing your considerations on real data, always available via the MyMachine app or FFM website.

GENUINE SPARE PARTS

Get the most out of your machines, choose the reliability of Fimap original spare parts. They are designed together with the machines, so they perfectly fit them thus guaranteeing the highest quality of performance.
