eco FORCE

HF6 pro eco Force

HF6 pro eco Force

Multifunction vacuum / carpet cleaner

STRENGTHS

- › Compact and lightweight
- › High-efficiency 750W Rotafil motor
- › Integrated on board accessories
- › 6-stage filtration with Hepa filter (optional)
- › 14 lt. filter bag
- › Integrated powerful blowing function
- › Quick electrified connection for power nozzle
- › Power nozzle and electrified kit (optional)
- › Energy consumption: class "A"

HF6 pro eco Force

High efficiency cleaning!

MULTIFUNCTION VACUUM CLEANER

The low connection ensures stability and the 4 swivel rubber wheels give maximum maneuverability. The patented Lindhaus floor nozzles are ideal on any surfaces. The working radius is 14 mt

ON BOARD TOOLS

HF6 is a powerful vacuum cleaner ideal also for above the floor cleaning thanks to its full set of on board accessories; it is appreciated especially by hotel and cleaning contractors.

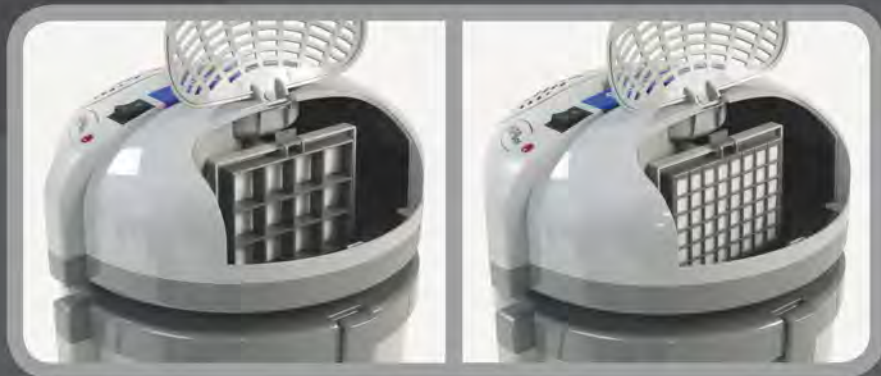

The machine is built with full-bag indicator and motor thermal protection.

DEEP CLEANING OF MATTRESS

HF6 pro eco FORCE can be equipped with an optional mattress kit made of a soft brush roller and a grey brush roller cover to use with the PB12e power nozzle. The brush roller runs at 5000 RPM making a vibration on the mattress which in combination with the brushing and the powerful vacuum grants a deep efficient cleaning. Important 5-star hotel chains have certified this machine for the "clean rooms" (clean rooms for allergy sufferers).

POWER NOZZLE AND DRY CLEANING SYSTEM

HF6 can be equipped with the optional electrified hose and PB12e power nozzle to become a powerful carpet cleaner for deep carpets and rugs care. The standard DCS converter inserted in the PB12e allows the dry cleaning. The Lindhaus eco-friendly detergents are available for textile flooring care.

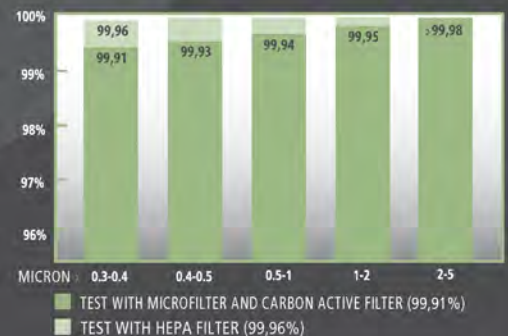

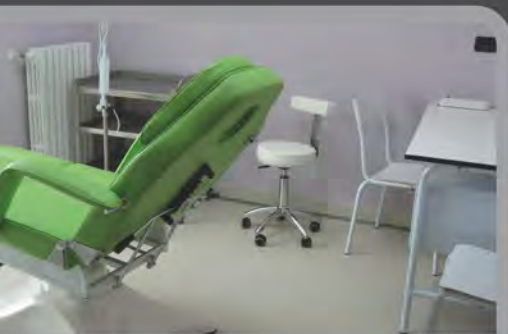

The filtration efficiency tests done on Lindhaus machines by the independent laboratory SLG (Germany) show the result of its sophisticated construction technology.

Thanks to the brush rolls with convergent bristles to the center that rotate at 5000 RPM/min and the powerful suction, the Lindhaus carpet cleaners are able to remove and deeply clean dust and debris in order to live in healthier and cleaner environments.

CRI (Carpet & Rug Institute U.S.A.) and SLG (Germany) have certified all Lindhaus carpet cleaners for their superior ability to remove dust that is fully retained.

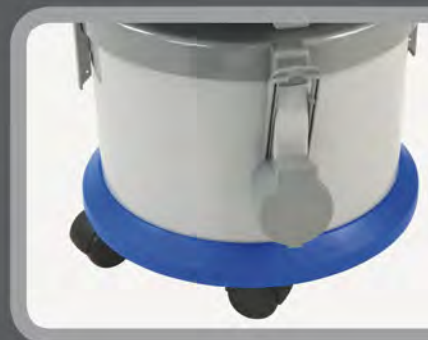

NET EFFICIENCY FILTRATION

BLOWER

Its very powerful suction can also be used to blow, simply by inserting the hose connector into the microfilter housing. This is a standard feature and it allows to remove dust from hard-to-reach corners. The use of an extra flex hose allows to vacuum immediately the dust removed by the blowing.

NET EFFICIENCY FILTRATION

The 6-stage filtration with exhaust 3M Filtrete microfilter can be enforced with the Hepa Filter or the Activated Carbon Filter, making the HF6 a perfect machine for healthcare environments, hotels, restaurants, offices, etc...The filtration efficiency tests done on the Lindhaus machine by the independent laboratory SLG (Germany) show the result of its advanced building technology.

The company Lindhaus srl reserves its right to make any modifications without any prior notice.

TECHNICAL SPECIFICATIONS

HF6 pro eco Force

Input power (W)	750
Water lift mm/H ₂ O (in/H ₂ O)	2300 (90)
Air volume lt/sec (CFM)	52 (110)
Motor protection	termo/amp.
Full bag light	standard
Three ply paper bag (lt.)	14
Washable TNT filter	optional
Exhaust Microfilter 3M Filtrete	standard
Hepa filter H11	optional
Sound power (db)	77
On board tools	standard
Total weight Kg (lb)	6 (13.2)
Cord length mt. (ft.)	10
Energy consumption (Class)	A
Power Nozzle PB12e	optional
Brush motor (W)	150
Cogged drive belt	standard
Electronic overload control	standard
Centre convergent bristles brush (RPM)	5000
Suction mm (in)	300 (12)
Brush width mm (in)	270 (10.6)
